Professional Summary

Passionate data science enthusiast seeking to leverage strong analytical skills, proficiency in machine learning, and expertise in data visualization to drive data-informed decision-making and deliver impactful solutions in a dynamic, innovative environment.

Education

1. St Xavier's high school HSC - 10+2(PCM)
   Completed: 05/23
   Grade: 69.78 PR

2. Bhagwan Mahavir University BCA - Final year
   Expected: 03/26
   Current CGPA: 7.64

Key Skills

Python, Java, Basic HTML and CSS, Object-oriented programming,
Front-end development, Web development, Basic Machine learning,
Basic Deep Learning, Data Analysis, Data Visualization,
Pandas and Numpy, Matplotlib and Seaborn

Projects

1. Linear Regression Model
   - Trained an AI model to predict survival for a tourist ship sinking event
   - 75-80% accuracy
   - Revealed survival patterns influenced by gender and demographics

2. Cafe Bill Analysis
   - Conducted end-to-end analysis of a cafˆ''s billing dataset
   - Identified most sold item, top revenue-generating product
   - Utilized data cleaning, grouping, and visualization techniques

3. Happy Holidays Explorer
   - Designed and developed a responsive website for a travel agency
   - Features: Dynamic tour listings, enquiry forms, image galleries
   - Focus: Modern UI/UX, fast load times, and mobile optimization
